

# Adopt A Shut-In!

Many people in our community today are homebound due to illness, injury, or limited mobility due to age. These “shut-ins” of our community are often forgotten and lonely. Make a difference and adopt a

shut-in today! Each troop will receive a profile of the shut-in they choose to adopt which describes who each individual is and what types of things

he or she is interested in. Troops will be able to visit their shut-in and establish a relationship with them to make them feel part of the community.

Adopting a shut-in can change someone's life, so be the change, and adopt a shut-in.
